

# EXACTO 1

## Precision milling machine

The EXACTO 1 precision milling machine meets far more than the usual standards. A powerful micro-motor provides strong and continuous performance. With its robust design, the machine ensures only the best when it comes to smooth running and precision.

The hingeless, ball bearing-mounted precision milling arm enables frictionless sliding and the easy guidance of the milling head in both vertical as well as horizontal directions. The model carrier with infinitely adjustable work table can be fixed pneumatically and, if necessary, magnetically to the work surface.

A halogen lamp provides optimum lighting. The speed of the brushless micro motor is freely adjustable between 1,500 and 20,000 rpm via the control unit. The device also has an adjustable lubrication unit.

As a result, an unobstructed view of the milling surface is ensured when working with milling oil. The feed and the drilling depth can be precisely set for custom milling and exact drilling.

Technical data	
Height	520 mm
Width	400 mm
Depth	350 mm
Weight	24 kg
Air pressure	3 – 4 bar

EXACTO 1 precision milling machine		7761 3 000	5,400.00 €
<b>Including</b>			
Control unit with foot pedal	Mounting for attachment holder		
Model carrier base with model carrier plate	Handle cover for handpiece		
Base sliding plate	Halogen lamp		
Collets ø 2.35 und 3 mm	Milling oil		
Rotary lock	Set of tools		

Accessories			
Collet	ø 3.00 mm	7761 3 002	78.30 €
	ø 2.35 mm	7761 3 003	78.30 €
Special milling oil for lubrication		7761 3 016	14.80 €
