

PLATINA[®]m.

Veneering ceramic

This low-melting glass ceramic enables the reconstruction of natural teeth through simple layering. Even in the case of limited space, an excellent reproduction of the tooth shade can be achieved using materials with precisely attuned colour shades. Evenly distributed leucite crystals and fine colour particles in the glass matrix ensure very dense and homogeneous surfaces, which increases the compatibility with the mucous membrane.

The modern veneering ceramic for universal alloys

- Natural colour brilliance
- Translucent, opalescent, fluorescent
- Ease of use, which hardly differs from that of conventional dental ceramics
- Low firing shrinkage and consequently high dimensional stability of framework
- Outstanding resistance

PLATINA[®]m is available in all 16 VITA[®] shades plus Bleaching Dentin A0. The basic range contains all opaquer pastes, opaquer dentins, dentins, incisals, glaze and transparent materials. In addition, shoulder materials, dentin modifier, incisal effect materials, correction materials, mamelon materials and stains/shades are also available. New to the range is the wash opaquer, which prevents a yellow-green reaction on the metal surface due to its special composition. This ceramic paste is therefore particularly suitable for use in conjunction with alloys with high silver content or non-precious alloys.

For more information, please contact us directly or go to www.heimerle-meule.com

Technical data	
Firing temperature opaquer	820 °C
Firing temperature dentin	770 °C
CTE _{500 °C} (alloy)	16.0 – 16.8 µm/mK

PLATINA [®] m starter set		7750 3 001	76.00 €
Opaquer paste A3	4 g		
Shoulder material A3	12 g		
Opaquer dentin A3	12 g		
Dentin A3	12 g		
Enamel material 2	12 g		
Transparent material clear	12 g		
Glazing paste	5 g		
Opaquer liquid	20 ml		
Shoulder material separating liquid	10 ml		
Modelling liquid L	30 ml		
Modelling liquid 2	20 ml		
Glazing liquid	20 ml		

Basic assortment		7750 3 002	2,134.00 €
16 x opaquer paste	4 g		
4 x opaquer paste shade	4 g		
19 x opaquer dentin	20 g		
16 x dentin	20 g		
1 x gingival mask	20 g		
4 x enamel material	20 g		
3 x transparent material	20 g		
1 x glazing paste	5 g		
1 x opaquer liquid	30 ml		
1 x shoulder material			
separating liquid	10 ml		
1 x modelling liquid L	50 ml		
1 x glazing liquid	30 ml		
Metal storage box			

Enamel effect range		7750 3 004	248.00 €
7 x incisal effect	20 g		

Stains assortment		7750 3 030	363.00 €
10 x stain paste	3 g		
4 x shade, fluorescent (paste)	3 g		
1 x glazing liquid	20 ml		

PLATINA [®] m colour indicator		7754 3 000	240.00 €
---	--	------------	----------

Shoulder material range		7750 3 003	660.00 €
19 x shoulder material	20 g		
1 x modelling liquid	50 ml		

Dentin modifier range		7750 3 005	358.00 €
7 x dentin modifier	20 g		
4 x chroma modifier	20 g		

Liquids
